

Additional Resources: Nursing Facility PASSR Training

[PASRR RULES: TAC Title 40, Part 1, Chapter 19, Subchapter BB](#)

Jan. 29, 2016

This training discusses the Nursing Facility (NF) Responsibilities Related to Preadmission Screening and Resident Review, found in the Texas Administrative Code (TAC) Title 40, Part 1, Chapter 19, Subchapter BB.

[PASRR PL1: Back to Basics](#)

The Preadmission and Screening Resident Review (PASRR) Level 1 (PL1): Back to Basics training reviews the PL1 form in a section-by-section manner. Participants will be asked to take notes on a blank PL1 form as they complete the training. At the conclusion of the training, participants will understand how to complete the PASRR Level 1 (PL1) screening form, and will be familiar with the following PL1 topics: Admissions, Transfers, Discharges, and Changes of Ownership (CHOW).

[PASRR PE: What Nursing Facilities Need to Know](#)

The Preadmission and Screening Resident Review (PASRR) Evaluation (PE): What Nursing Facilities Need to Know training explains the PASRR Evaluation (PE) and how the PE impacts the nursing facility (NF) and the individuals served in the NF. PL1: Back to Basics should be completed as a prerequisite for this training.

Nursing Facility PASSR Responsibility Checklist

- [Checklist in PDF format](#)

[PASRR Specialized Services Training](#)

The Preadmission Screening and Resident Review (PASRR) Specialized Services Training explains the nursing facility's (NF) role in the PASRR specialized services process. The training discusses how the Interdisciplinary Team (IDT) determines specialized services for individuals, how the facility can bill for those services and the difference between habilitative and rehabilitative services.

[PASRR: What You Need to Know Now](#)

This webinar provides the latest PASRR training, including recent and upcoming enhancements to the PASRR program, and PASRR issues commonly faced by nursing facilities. [FAQs, as well as the presentation handouts and slides, are also available on the website.](#)

PASRR 101 Web-based Training

This course is geared toward Nursing Facilities and is designed to deliver information about the role Nursing Facilities play in the PASRR process. This course will focus on the purpose of PASRR, state and federal regulations which govern the PASRR process, types of admissions, screening and specialized services. This course will provide an overview of each aspect of the PASRR process.

Referring Entity Training

Referring entities are defined as the entity that refers an individual to a nursing facility, which includes a hospital, attending physician, LAR or other personal representative selected by the individual, a family member of the individual, or a representative from an emergency placement source, such as law enforcement.

The RE is always responsible for completing the PL1. There is no PASRR admission type which excludes the RE from the responsibility to complete the PL1.

- In Expedited Admissions, Exempted Hospital Discharges and PL1 negative individuals the RE completes the PL1 and sends it to the NF with the individual.
- In Preadmission positive individuals the RE faxes the PL1 to the LA for data entry and initiation of the PE.

The Texas Department of State Health Services (DSHS) is providing training for all RE's including, but not limited to: Hospitals, Physician Offices, Law Enforcement, Home Health Agencies and Hospice Agencies.

Overview of RE PL1 Responsibilities:
